

About This Video Series

This series is intended to be an endodontic retreatment reference. Techniques are demonstrated utilizing 3-D graphics and animation, plastic models, extracted teeth and operatory patients. All scenarios are created with every effort to duplicate the precise conditions commonly encountered in your everyday practice.

Series running time: 300 min.
Each DVD: 75 min.

The Practice of Success

You Can Do It

Create the Result

Breakdown to Breakthrough

Nonsurgical Retreatment: Disassembly & Missed Canals, Quality & Profitability

- The rationale for nonsurgical endodontic retreatment
- Instruments and techniques for the removal of restorative dentistry
- Learn how to identify and treat frequently missed canals
